Full Job Description

ICON Utility Services is seeking a qualified electrical field safety observer. The observer will assist with safety supervision on our utility client's projects. Our utility client's project work consists of overhead and underground electrical transmission & distribution construction and maintenance, including aerial support and work. All work is 500KV, therefore utility background is required with aerial experience a plus.

Your work will include:

- Providing Utility Management Safety Support
- Applying electrical trade, regulatory, and safety standard knowledge to assist in the safe and reliable operation of the utility transmission and distribution grid.
- Performing regular field observations and recording safety audits to reinforce safety and human performance expectations.
- Attending internal and external meetings as required to participate in promoting a strong safety performance by our utility client's contractors and subcontractors.
- Coordinating with project managers, planners, and utility crews.
- Coordinating with subject matter experts regarding recorded incidents, identifying the cause and what alternative procedures could mitigate the cause in the future.
- Supporting company as required on investigations and reviews of contractor incidences.
- Maintaining high service standards, ethics, and professionalism at all times.
- Being a team player.
- Being comfortable in all types of environmental working conditions.

Qualifications:

- Excellent written and oral communication skills are required
- 2 years of experience in utility management safety oversight
- 3-5 years utility background, distribution and/or transmission
- A practical understanding of occupational safety
- Must be CPR/AED certified
- Must have OSHA 10/30

Additional information:

The standard work week is forty hours. Extended hours, weekends and night work may be required as well. Split shifts may be required to ensure coverage of day and night work as needed. The projects are located in the San Diego area.
