

## Pipeline, Gas and Civil Field Safety Observer (FSO)

ICON Utility Services is seeking a qualified Field Safety Observer focused on civil and gas opportunities. Pipeline/Gas/Civil Field Safety Observer will be deployed to various locations throughout our utility client's service territory, which is mainly San Diego County. FSO's will conduct safety observations on our utility client's contractors and their subcontractors conducting work on our utility client's Gas and Civil projects. Our utility client's project work consists of overhead and underground electrical, transmission & distribution, construction maintenance, gas transmission and distribution system construction, and maintenance, and utility vegetation management activities.

Your work will include:

- Providing Pipeline/Gas and Civil Safety Support.
- Applying trade, regulatory, and safety standard knowledge to assist in the safe and reliable operation of the utility pipeline grid.
- Client territory is primarily **SAN DIEGO** County.
- Performing regular field observations and recording safety audits to reinforce safety and human performance factors.
- Attending internal and external meetings as required to participate in promoting a strong safety performance by our utility client's contractors and subcontractors.
- Coordinating with project managers, planners, and crews.
- Coordinating with subject matter experts regarding recorded incidents, identifying the cause and what alternative procedures could mitigate the cause in the future.
- Supporting company as required on investigations and reviews of contractor incidences.
- Maintaining high service standards, ethics, and professionalism at all times.
- Being a team player.
- Being comfortable in all types of environmental working conditions

Qualifications:

- Utility Gas and Civil Safety Experience.
- Excellent written and oral communication skills are required.
- A bachelor's degree in related areas such as health and safety, construction management, engineering or business administration is desired OR 4 years equivalent related experience and training.
- OSHA 30
- Formal Safety Certifications - CSP, CHST, CUSP, COSS, etc.
- Local candidates only, must be willing to relocate, no per diem.

Preferred qualifications:

- Minimum of 4 years of experience in gas/civil operations, safety oversight or as a pipeline professional
- Experience with distribution gas projects
- Trenching, and Wet Utilities knowledge
- A practical understanding of occupational safety
- CPR/AED certified.
- Must be able to pass a drug and background check.
- Ability to work in all weather.
